# Theory Exam Coversheet Portal

Generate Theory Exam Coversheets for students as per GACA regulations.

Step 1: Accessing the Portal

Access the portal by first clicking the below link:

📘 Streamlit

Coversheet Generator

This app was built in Streamlit! Check it out and visit https://streamlit.io for more awesome community apps. 🎈

Step 2: Enter the Password

Access the reporting by entering the password

Generate Coversheets

Create individualized coversheets summarizing each student's exam performance.

Enter Password

👁

Incorrect password

Step 3: Enter the Student ID's

Input the IATC ID's of the students you want to generate coversheets for.

Type each ID followed by a comma like so: **151596, 156756, 154960**

Generate Theory Exam Coversheets

Enter a list of student IDs and download the Excel coversheets containing the highest result for each subject the student has taken.

Enter Student IDs separated by commas (e.g., 151596, 156756, 154960):

151596, 156756, 154960

Note: Excel Tool to Combine ID's

Click on the 'Download Excel Template' link to download a tool that will assist in combing the student ID's so you can then paste them into the generator.

Paste your student ID's in the green cells:

Then collect the ID's from the blue cell and paste them directly into the generator

Step 4: Generate the Coversheets

1 **Paste ID's**

Paste the student ID's into the field

2 **Generate the Coversheets**

Click the button to generate the coversheets

Generate Theory Exam Coversheets

Enter a list of student IDs and download the Excel coversheets containing the highest result for each subject the student has taken.

Enter Student IDs separated by commas (e.g., 151596, 156756, 154960):

151596, 156756, 154960   **1**

Generate Coversheets

Generating coversheets...

Download All Coversheets as ZIP

Coversheets zip generated successfully!

Step 6: Open the Coversheets

1

File Names

You will find the coversheets in the downloaded ZIP file, each with the student's ID as the file name

- 151596.xlsx
- 154960.xlsx
- 156756.xlsx

2

Open in Excel

Coversheets contain student's highest result for each subject taken as well as information about the student and and the exam attempt.

Note: Coversheets are locked to prevent the changing of any information found within.

Student Name:	Ziyad Mohammed Alhaek

Benefits of the Coversheet Portal

Efficiency	Offers a streamlined process for generating coversheets in bulk.
Accuracy	Each generation connects to a database that always contains the most updated and validated results.
Security	Coversheets are locked so as to prevent amendment of the coversheets' grades but can be saved and printed for record-keeping purposes.
